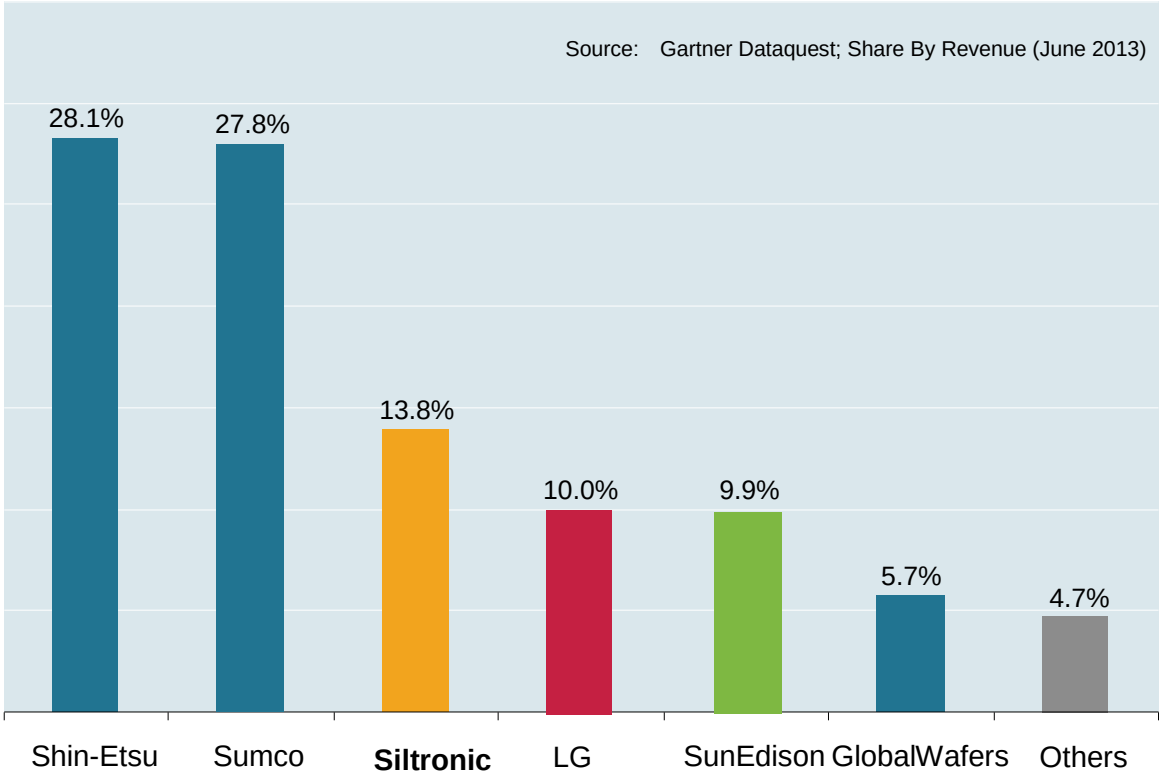
Siltronic AG Supplier Search -Request for Information

Siltronic AG plans to meet potential technology and service providers at SEMICON China 2014, Mar 18 – 20, Shanghai.

Siltronic AG and our affiliated companies are making significant investments in several fabs to maintain leadership in semiconductor process technology. Therefore, the purchasing and technology teams are researching following solution providers that offer solutions for technology innovation and cost saving of manufacturing process.

- More than 50 years of history in silicon technologies
- One of the leading manufacturers of silicon wafers
- Global scale and reach – covering all the major semiconductor markets
- 4 world-class manufacturing facilities in the US, Europe and Asia
- Revenues EUR 868 mn in 2012
- Approximately 4,000 employees worldwide

2012 Market Share by Wafer Revenues



Purchasing Product Categories:

1) Material suppliers: gases, chemicals, slurries, SiC, Graphite, and dopants
2) Consumable parts and spare parts: Polishing pad, Sawing wire, Grind Wheel, CMP pad, CMP retainer ring, Quartz parts, Ceramic parts, Clean Room Consumables
3) Cleaning and recycling: cleaning of parts, regeneration or recycling.
4) Other Silicon Wafer Manufacturing Equipment and Utility
