Welcome Message

I would like to welcome you to SEMICON China and FPD China 2016, a most premier global semiconductor industry gathering, and the world's largest Semiconductor trade show for the past five years! With the great support from the industry, this year's SEMICON China scale increased another 20%, reaching a new record of more than 2,600 booths. Many theme pavilions at the exposition demonstrate the vitality of the industry. The series of concurrent conferences and programs bring the global industry knowledge-sharing to a new level.

The **Grand Opening Keynote** of SEMICON China will be delivered by world-class industry leaders: Chairman of SMIC, President of China National IC Fund, together with the CEOs from TSMC, Applied Materials, Amkor Technology, TEL, STATS ChipPAC (a JCET Company) and Lam Research, will explore the global business & technology trend, market opportunities, and share their ideas supporting China's semiconductor industry development.

Market and Investment have been driving the rapid rise of China's semiconductor industry. The Chinese companies and funds have been active in the recent cross-border merger and acquisition deals. In “Tech Investment Forum - China 2016”, leaders of China's IC Investment Fund and global leading investment institutions will discuss investment hot-topics. Establishing a full IC manufacturing supply-chain and building manufacturing core-competencies are vital for China's semiconductor industry. “Build China IC Manufacturing Ecosystem” Forum gathers speakers from China and global leading companies from IC design, manufacturing to equipment & materials. They will cover wide-range topics: innovation and cooperation in leading-edge frontend process, advanced packaging technologies, 8-inch production line, as well as More-than-Moore, etc. Other concurrent technology conferences with exciting topics include: “China Memory Strategic Forum”, “Technology Shape the Future - Sensor Hub Solution for Wearable and IOT”, “LED China Conference 2016”, “Power Semiconductor Forum 2016”, “SEMI-JEDEC Mobile and IOT Technology Forum”, and “China Display Conference /ASID 2016”. These conferences provide ideal platform for the leaders and professionals of global semiconductor industry to gather together, explore industrial development, share their vision, and work together to grow the industry!

Exhibitors of SEMICON China and FPD China 2016 cover the full industry chain of semiconductor manufacturing. Almost all China's leading device makers, and most global top packaging houses exhibit at SEMICON China. Together with their global equipment and materials suppliers, a full ecosystem of semiconductor manufacturing is presented. China's semiconductor industry is expecting a sustained growth. It presents opportunities to both China and global companies. SEMICON China and FPD China 2016 will help your business by CONNECT China and global semiconductor industries!

Sincerely

Allen Lu, Ph.D.
