The key to a successful trade show experience is leveraging available tools and techniques to maximize your sales opportunities. Experienced exhibitors take advantage of many promotional opportunities in event directories, on-site signage, advertising etc. to set their company apart from the rest.

SEMICON China & FPD China has been the biggest exhibition in the world that attract the most influential and important buyers in global semiconductor industry. Having a thorough marketing campaign can reinforce your sales message in a dynamic setting where exhibitors compete for attention.

A

Attendee Badge Insert

A1

Production included, Limited to 4 sponsors

Order deadline: May.19, 2023

Put your company name and logo on virtually every SEMICON China attendee with these eye-catching badge inserts. Turn every visitor into a walking advertisement for your company.

YOUR BENEFITS:

Logo on insert

Company featured prominently to all visitors allowing for easy locating of booth

Logo and short company profile on sponsors page of the SEMICON China 2023 website linking to sponsor's website of choice

Price: US \$8,000 / 10,000 inserts

SPECIFICATIONS:

Single-sided, full colour, design provided by sponsor

Size: 9.8cm (l) x 5cm (w)

Format: AI or EPS only

Attendee Lanyard

A2

Production included, Limited to 5 sponsors

Order deadline: May.12, 2023

At the registration and badge pick-up stations, visitors receive a lanyard which is worn during the entire three-day exhibition. The display of your company's logo on the lanyards ensures your company's name is prominently featured throughout all visitor interaction during the event.

YOUR BENEFITS:

Logo on lanyards

Logo and short company profile on sponsors page of the SEMICON China 2023 website, linking to sponsor's website of choice

SPECIFICATIONS:

20mm x 93mm

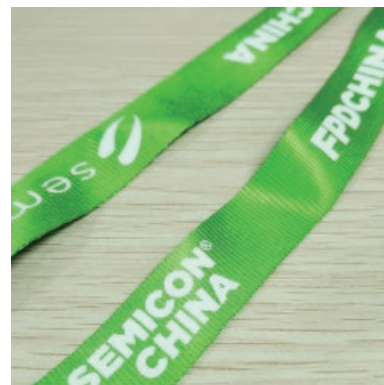

Single-sided, logo reverse white printing

Intervals between sponsor's logo and the exhibition logo

Sponsors can choose the colour of the lanyard

Design provided by the sponsor, format: AI or EPS only, 300DPI

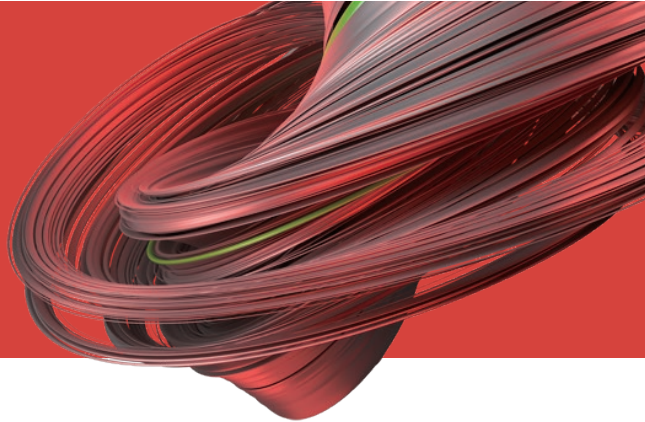

Price: US \$10,000 / 8,000 inserts

China Semiconductor Technology International Conference

Plan now to participate at CSTIC 2023, one of the largest and the most comprehensive annual semiconductor technology conferences in China and Asia since 2000. Organized by SEMI and IEEE, co-organized by IMECAS, CSTIC 2023 will be held on **June 26-27, 2023** in Shanghai, China, in conjunction with SEMICON China 2023. The conference will have nine symposiums covering all aspects of semiconductor technology with focus on manufacturing and advanced technology, including detailed manufacturing processes, device design, integration, materials, and equipment, as well as emerging semiconductor technologies, circuit design, and silicon material applications. Hot topics, such as artificial intelligence (AI) chips, 6G chips, neuromorphic computing technology, advanced memory technology, 3D integration, MEMS technology will also be addressed in the conference.

Industry Leaders (previous)

In addition to individual benefits listed in this sponsor brochure, each opportunity includes the following benefits:

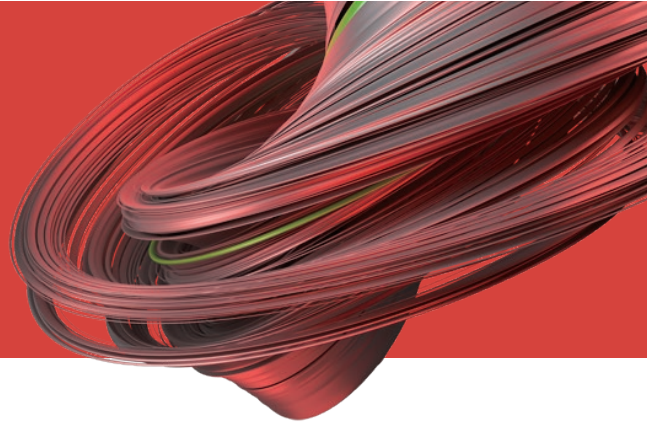

- Company logo listed on conference guide as a sponsor
- Company logo on CSTIC and SEMICON China website as a sponsor
- Company logo listed on Plenary session conference room backdrop as a sponsor
- Company logo placed in promotion emails

SEMI members receive 20% discount on all sponsorships Pricing: Non-member (member)

SEMI SCC

Order deadline: May.19, 2023

CIO

With the intensification of global warming, ecosystems are facing severe challenges. We have realized that tackling climate change requires strong international cooperation to reduce the ecological risks that climate change poses to the Earth. In this context, SEMI established the Semiconductor Climate Consortium to strengthen industry solidarity and collaboration, committed to reducing greenhouse gas emissions throughout the entire industry chain, supporting the carbon peaking and carbon neutrality goals, jointly developing green solutions, and moving towards zero emissions.

At the same time, SEMI plans to hold the first "SEMI SCC Carbon Neutrality and Sustainable Development Summit Forum" in SEMICON China. The forum will focus on the theme of low-carbon environmental protection, energy conservation and emission reduction, ESG, etc., and invite executives from the semiconductor and energy industry to jointly discuss how to promote the fight against climate change and the realization of the dual carbon goals through technology, influence investment and global cooperation, so as to provide suggestions for promoting carbon neutrality sustainable development.
